Composite Risk Management

Army Readiness Assessment Program (ARAP) Survey

"**Helping Leaders Save Lives**"

Rock Island Arsenal Garrison

06 November 2006

Army Readiness Assessment Program (ARAP) Survey

Composite Risk Management

- **ARAP is a Web-based initiative that provides Garrison Managers with data on their organization's readiness posture through five segments:**
  - **Processes Auditing (PA) assesses the processes used to identify hazards and correct problems**
  - **Reward Systems (RS) assesses the unit's program of rewards and discipline to reinforce proper behavior and correct risky actions**
  - **Quality Control (QC) places emphasis on high standards of performance**

Army Readiness Assessment Program (ARAP) Survey

- **ARAP is a Web-based initiative that provides Garrison Managers with data on their organization’s readiness posture through five segments (continued):**
  - **Risk Management (RM) assesses the health of unit processes**
  - **Command and Control (CC) assesses leadership, communication, and policies as they relate to Composite Risk Management (CRM)**
